Abu Dhabi, United Arab Emirates

Flutter Mobile App Developer (Android - iOS)

With over 2 years of experience, I'm a skilled Flutter developer adept at crafting cross-platform iOS and Android apps. I've successfully delivered solutions for diverse industries, from e-commerce to gyms, restaurants, and booking services. Committed to continuous growth, I've completed Udemy and online courses to elevate my mobile development skills.

ACHIEVEMENTS

Orange Digital Center Egypt and Instant Software Solutions.

Flutter Hackathon - 13/08/2022 - 26/08/2022

- I am happy to announce that I have been chosen as a **Flutter Hero**
- **La Vie app**: an E-Commerce app that lets people buy plants and seeds. I used Api to communicate with the backend, and the design was on Figma. I created a login and registered for new users. I also created some features for the page like the shopping cart.
- **Chat app**: On the last day of the Hackathon, the final project was a Chat app. I should create it in three hours, but I created it in 30 minutes. This app was based on Firebase & Flutter.
- It was a real-life experience for how the workflow in the big tech companies.

Droidcon Egypt.

21/10/2022 - 22/10/2022

- Droidcon Egypt is a mobile developer conference with speakers from all around the globe presenting talks and workshops.
- I am happy to announce that I participated in the Droidcon event organized for the first time in Egypt.
- it was about Kotlin native Android and Flutter.
